

# Lab 1

Sam Kutsyn, 2581500

Volodymyr Kuchera, 2523181

EE 446

July 9, 2026

## Preamble

You can access the project at <https://studio.edgeimpulse.com/studio/1044661>.

## Task 1

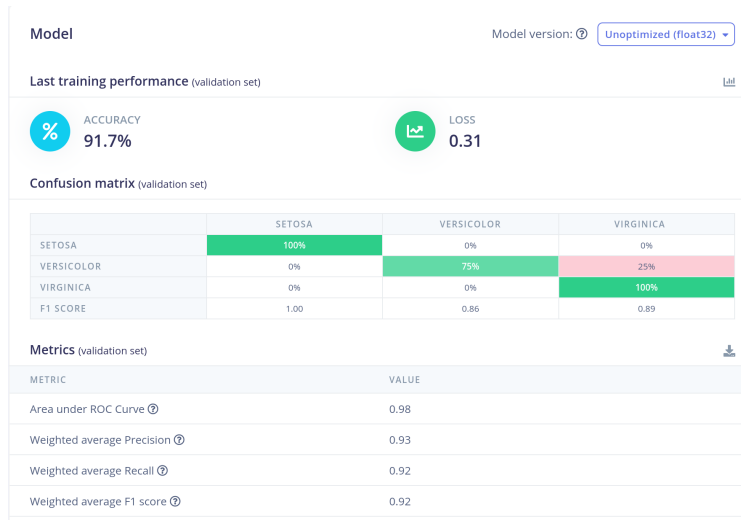

Figure 1: Training accuracy for the default model.

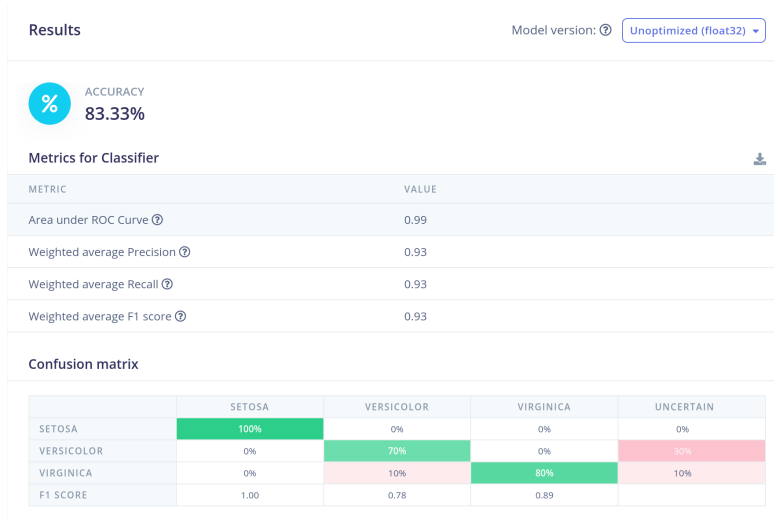

Figure 2: Testing accuracy for the default model.

## Task 2

TO improve the inference performance, we have switched the flatten layer for the dense layer and increased the training epochs to 120, which allowed us to reach 96% accuracy in testing.

Figure 3: New model architecture.

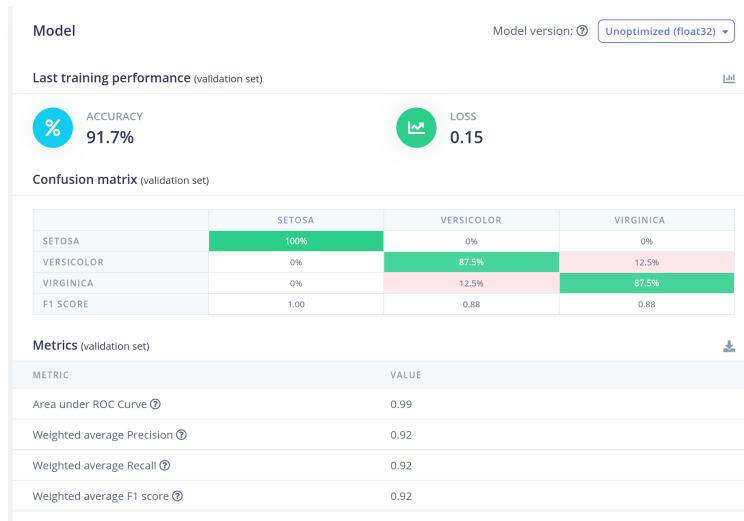

Figure 4: Training accuracy for the new model.

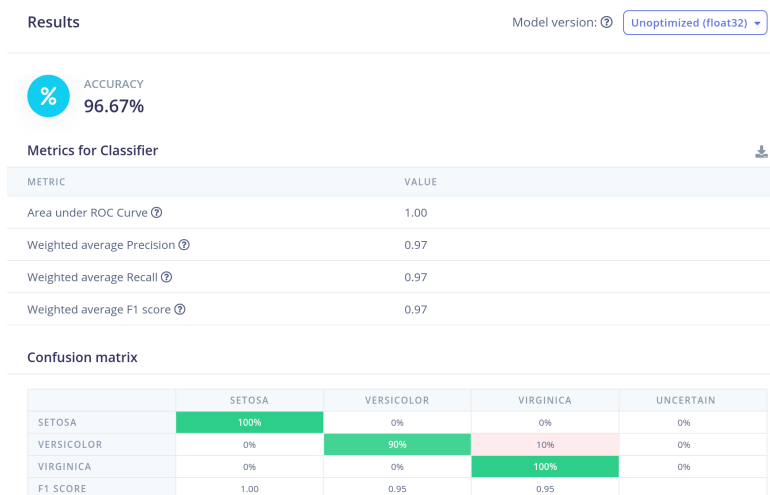

Figure 5: Testing accuracy for the new model.
